GRAIN AND SOYBEAN STOCKS BELOW YEAR AGO

Stocks of the four feed grains (corn, oats, barley, and sorghum grain) totaled 171 million tons on January 1, 1973, according to the Crop Reporting Board. This is 3 percent less than the 176 million tons a year earlier. Corn was slightly above last year while oats, barley, and sorghum grain were lower.

All wheat stocks were 10 percent below a year earlier and 1 percent below the January 1, 1971 total.

Soybean stocks were 2 percent below a year earlier. Flaxseed stocks were off sharply, registering a 59-percent decline from a year ago.

The 1972 harvest of fall crops was delayed continually by poor weather. The harvest was not yet completed by January 1, the date to which this report relates. The farm stocks estimates in this report include production from acreage that was still expected to be harvested after January 1.

All Wheat in storage on January 1, 1973 totaled 1,393 million bushels, 10 percent below a year earlier and 1 percent below the January 1, 1971 total. Off-farm stocks at 886 million bushels were 4 percent above a year earlier but farm holdings of 507 million were down 27 percent. Disappearance from all storage positions from October through December is indicated at 473 million bushels, compared with 326 million a year earlier. The Commodity Credit Corporation owned 267 million bushels and had loans outstanding on 305 million.

Durum wheat stocks in all positions on January 1, 1973 totaled 98.8 million bushels, 17 percent less than a year earlier but 5 percent above 2 years ago. Farm holdings at 72.2 million bushels were 24 percent below last year but off-farm stocks were up 7 percent. Disappearance during the October-December quarter is indicated at 15.4 million bushels, compared with 13.5 million for the same quarter a year earlier.

Special Note: Historic revisions of grain stocks, by States, for the 1964-69 crop years were published in Statistical Bulletin No. 509, which is available upon request. The farm stocks revisions were made following the historic revisions of production estimates issued earlier in Statistical Bulletin No. 490.

Revised estimates for the 1970 and 1971 crop years are included in this report.

UNITED STATES DEPARTMENT OF AGRICULTURE
STATISTICAL REPORTING SERVICE CROP REPORTING BOARD
GrLg 11-1 (1-73) WASHINGTON, D.C. 20250

Rye stocks in all storage positions on January 1, 1973 totaled 54.5 million bushels, about the same as a year earlier but 34 percent more than the January 1, 1971 total. Off-farm stocks at 38.4 million bushels were 16 percent above a year earlier but farm stocks at 16.1 million were down 25 percent. Indicated disappearance during October-December 1972 was 8.1 million bushels, down from the 10.2 million in the comparable quarter a year earlier. The Commodity Credit Corporation owned 29.8 million bushels and had loans outstanding on 12.8 million bushels.

Corn in all storage positions on January 1, 1973 totaled 4,718 million bushels, up slightly from the 4,700 million bushels a year earlier and 25 percent more than January 1, 1971. Farm holdings at 3,583 million bushels were up 1 percent from last year while off-farm stocks at 1,135 million bushels were down 1 percent.

Indicated disappearance during October-December totaled 1,882 million bushels, compared with 1,608 million used in the same quarter a year earlier.

The Commodity Credit Corporation owned 140 million bushels of corn and had loans outstanding on 735 million bushels.

Oat stocks in all positions on January 1, 1973 totaled 780 million bushels, 17 percent less than a year earlier and 15 percent below January 1, 1971. Off-farm stocks at 220 million bushels were down 12 percent (31 million bushels) from last year. Farm holdings of 560 million bushels were down 19 percent (133 million bushels) from January 1, 1972.

Indicated disappearance from October through December 1972 was nearly 153 million bushels, compared with 150 million bushels in 1971.

The Commodity Credit Corporation owned nearly 172 million bushels and had loans outstanding on 199 million bushels.

Barley in all storage positions January 1, 1973 totaled 361 million bushels, 8 percent less than a year earlier and 5 percent below January 1, 1971. Farm holdings at 246 million bushels were down 4 percent from a year earlier and off-farm stocks at 115 million bushels were 16 percent smaller. Disappearance from all storage positions during October-December was 92 million bushels, down 4 million bushels from the same quarter a year earlier.

The Commodity Credit Corporation owned 9 million bushels of the total and had loans outstanding on 70 million bushels.

Sorghum grain in storage in all positions on January 1, 1973 totaled 628 million bushels, 11 percent below a year earlier but 3 percent above 1971. Farm stocks accounted for 228 million bushels, a decrease of 7 percent from last year, while off-farm stocks at 400 million bushels were down 14 percent.

January 1 stocks indicate an October-December disappearance of 341 million bushels, sharply above the 257 million bushels used in 1971 and the 317 million bushels used in 1970 for the comparable quarter.

The Commodity Credit Corporation owned 37 million bushels and had loans outstanding on another 58 million bushels.

Flaxseed stocks in all storage positions on January 1, 1973 totaled 14.4 million bushels, 59 percent below a year earlier. Flaxseed stored off farms accounted for 10.2 million bushels, 71 percent of total stocks. Farm stocks totaled 4.2 million bushels, 2.7 million below last January 1.

Current stocks indicate a disappearance during October-December of 7.3 million bushels, compared with 5.3 million bushels in the same quarter of 1971. Disappearance during July-December 1972 is indicated at 19.6 million bushels from a supply of 34.0 million bushels (carryover of 20.1 million bushels plus the 13.9 million bushels produced in 1972). Reported disappearance for this 6-month period included about 10.7 million bushels crushed and exports of around 7.3 million bushels.

The Commodity Credit Corporation owned 6.6 million bushels and had loans on only 0.4 million bushels.

Soybeans in storage in all positions on January 1 totaled 870 million bushels, 2 percent less than a year earlier. Farm stocks at 433 million bushels were up 9 percent but off-farm stocks at 437 million were 11 percent below a year earlier. The Commodity Credit Corporation owned no soybeans but had loans outstanding on 71 million bushels.

Stocks on January 1, 1973 indicate a September-December disappearance of 478 million bushels from a supply of 1,348 million bushels (carryover of 72 million bushels plus 1972 production of 1,276 million bushels), compared with a disappearance of 386 million bushels for the same period a year earlier. During the past 4 months, approximately 259 million bushels were processed for oil and about 183 million bushels were exported.

1/INCLUDES STOCKS AT MILLS, ELEVATORS, WAREHOUSES, TERMINALS, PROCESSORS AND CCC-OWNED GRAIN AT BIN SITES.

Off-Farm Grain Storage Capacity

Capacity of off-farm commercial grain storage in the Nation totaled 5,810 million bushels on January 1, 1973, 2 percent greater than a year earlier. Increases were recorded in 28 States while 12 recorded declines.

Changes in most States were relatively small with Iowa, Illinois, and Louisiana showing the largest increases of 43, 32, and 12 million bushels, respectively. The largest decline of 8 million occurred in Texas.

Kansas moved ahead of Texas to rank first in storage capacity. The two States combined account for more than one-fourth of the Nation's total capacity. The next four ranking States--Illinois, Iowa, Nebraska, and Minnesota--have nearly one-third of the total capacity.

Capacity data, by States, include all elevators, warehouses, terminals, merchant mills, other storages, and oilseed crushers which store grain, flaxseed, or soybeans. Capacity data exclude CCC bins, warehouses used to store only rice or peanuts, oilseed crushers processing only cottonseed or peanuts, tobacco warehouses, seed warehouses, and storages that handle only dry beans or peas.

Capacity of Off-Farm Grain Storage Facilities, by States, January 1, 1973

State	Rated Off-Farm Storage Capacity		State	Rated Off-Farm Storage Capacity	
	Revised January 1, 1972	January 1, 1973		Revised January 1, 1972	January 1, 1973
